

TOLUWALOPE STEPHEN ADERIBIGBE

Frontend Developer | UI/UX | Data Entry & Data Extraction

+234 902 934 8422 | aderibigbetoluwalopestephen@gmail.com

PROFESSIONAL SUMMARY

Frontend Developer with practical experience building responsive, user-focused websites and web applications. Skilled in HTML, CSS, JavaScript, React, Vue.js, PHP and MySQL, with experience integrating APIs and developing clean, accessible user interfaces. Also experienced in data entry, data extraction, spreadsheet-based workflows, and UI/UX design. Comfortable turning requirements into functional web interfaces and continuously learning new technologies.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, React, Vue.js, Responsive Web Design
Backend / Database	PHP, MySQL, Supabase, REST/API Integration
Design	UI/UX Design, Wireframing, Responsive Interface Design
Data	Data Entry, Data Extraction, Microsoft Excel, Data Organization
Tools	Git/GitHub, VS Code, Microsoft Word, PowerPoint

SELECTED PROJECTS

University of Ibadan Staff Data Management System *(React, Supabase, JavaScript)*

- Built a staff data collection and management interface with an administrative dashboard.
- Designed staff registration workflows and structured staff information for easier administration.
- Planned features including passport upload, staff management, leave scheduling, direct staff communication, and gender statistics.

OIBSIP Web Development Internship Projects *(HTML, CSS, JavaScript)*

- Developed a responsive landing page, portfolio/profile website, and temperature converter.
- Applied frontend development concepts including responsive layouts, navigation, styling, and JavaScript interactivity.

Student Timetable Generator *(React, Tailwind CSS)*

- Conceptualized a mobile-friendly timetable generator with a modern glassmorphism interface and PDF export.

Fashion Design Website *(React, HTML, CSS, JavaScript)*

- Developed a responsive fashion design website with About, Gallery/Pictures, Contact, slider content, and WhatsApp/email contact options.

EXPERIENCE

Frontend Development / Project Experience

Hands-on experience developing academic, internship, and personal web projects using modern frontend technologies. Responsibilities have included interface development, responsive design, dashboard creation, API/database integration, debugging, and improving user experience.

EDUCATION & CERTIFICATION

University of Ibadan — Undergraduate Student

Relevant focus: Web Development, Programming, Databases, Statistics and Information Technology.

Google Certification — Google-certified training/credential in technology-related skills.

CORE STRENGTHS

Problem Solving • Analytical Thinking • Communication • Attention to Detail • Team Collaboration • Continuous Learning • User-Centered Design
